

FOLLOW-UP

VOCABULARY EXPANSION

- As follow-up we can ask the class to prepare a poster presentation on the importance of safety equipment.
- Students (in groups) can search the Web in order to find information about the most common PPE (personal protective equipment)
- They can work on a specific workplace, for instance: building site/ shipyard/ manufacturing plant...
- For example, the group working on the PPE necessary on a building site may come across words such as:

HARD HATS

PROTECTIVE GLOVES

HEARING PROTECTION: EAR PLUGS

FULL FACE SHIELDS

CHEMICAL SPLASH GOGGLES

RESPIRATORY PROTECTION

STEEL-TOED BOOTS

- Each group can structure a mini glossary of the specific PPE lexis with simple explanations for each term focussing on:

DESCRIPTION OF ITEM

PART OF BODY PROTECTED

AIM
